This survey was conducted by Paul C. Gorski in November and December, 2009. Participants (N=219) were asked to identify scholars, resources, and organizations that have influenced their work in teacher education. They included faculty of multicultural or social justice education courses, specialists in schools and districts, and others involved in multicultural or social justice teacher education. The purpose of the survey was to uncover the materials, ideas, and frameworks most often employed in teacher education for multiculturalism and social justice. Results should not read as “best-of” or “recommended resources” lists. For more information or to see other results visit <http://www.EdChange.org/survey.html> or email Paul C.
